laws & such.

He said if the project is one 5 MW
the state has the authority ^{over}
this kind of project. This project has
11 turbines each 1 MW. The state is
open to all opinions for and against
these projects.

There will be a hearing on Sept 22, 2009 at 7:00 at the town hall conducted by the PUC. Encourage all to attend, so comments are in.

There are taxes collected on the turbines to benefit all units of governments but it is minimal.
