

There will be a hearing on Sept 22, 2009 at 7:00 at the town hall conducted by the PUC. Encourage all to attend, so comments are in.

There are taxes collected on the turbines to benefit all levels of governments but it is minimal.

Edith Nelson Clark

Sept 15, 2009

Greenvale town Board met Sept 15, 2009 at the town hall with all board members present at 8:00pm. Chairman Robert Winter called the meeting to order and the pledge was read.

Clerk read minutes from August. Richard Moore moved to accept, Guy Langer second. Approved.

Clerk read minutes of meeting with attorney Jeff Paulson. Richard Moore moved to accept Guy Langer second. Approved.

Brian Watson from Soil & Water attended the meeting and stated an old law from 1991 giving SWCD authority.

over wetlands needs to be updated. This would again give SWCD power to govern wetlands. Brian had a resolution that he has been taking around to all townships to sign. This will make a paper trail if anything ever goes to court. Richard Moore moved to sign this and Greg Langr second. It was signed & we will get a copy when Brian gets the SWCD signatures.

Next item brought up was the wind turbines asking for locations. It seems everytime there is a new map as to locations. Residents are getting concerned and organizing some meetings. Public Utilities Commission are going to hold a public hearing on Sept 22 for getting public informed & giving them a chance for comments. Residents are encouraged to attend to stay informed. Questions as to the use of existing barn on Medina property. It will be a maintenance facility with extra parts & such. This is in agreement to PUC. Greg feels township should still rule over this project. Mr Paulson because of the size of the project

The State will make decisions.
Citizens are encouraged to make
written comments to FUC.

The driveway for Scott Norburns
was brought up, board did some
checking with some older residents
in township & they could not remember
if & when the township ever maintained
this road. When it was abandoned it
was not recorded in the county.
What should be done now is a question.
Petition for a cartway - do minimum
maintenance - or nothing.

Old town hall is up on planks
& will be moved on Sept 30.
More ground is needed on 290th &
Garrett. Bushing to be done on 290th
by Laris property as trees are hanging
onto the road & it is hard to get
through with machinery.

Joint Powers agreement for Ordinance
51 for the County to name roads &
such. will ask the County what this
entails.

Bob Hegner is requesting the plan
revised for for word town project.
The board denied his request at this
time as check from Mednis has

not been cashed. Greg Langer mentioned to return the check to Medina as this turbine is no longer part of the project.

Discussed and decided to wait for now yet. Clerk will check up there in a contract for Bob Hegner in regard to this.

Bills were filed on and paid
